30:31
Poem

Drawing on observations from the created order, the collection of proverbs was gathered and arranged with a plea at the beginning (1-9) to embrace wisdom (חֵכְמָה - the skill of living well) followed by various collections of proverbs (10-31) so that individuals would recognize "the way life works" and would change their lives to conform to the maxims presented and live practical, righteous and productive lives in light of the fear of the Lord.
